

# The Gospel Of John

To complete this study...

1. Read the book of John one chapter at a time. (You may choose your own pace).
2. As you read each chapter record the verse reference with the observation under the appropriate headings. There are seven headings. There may or may not be information to put under each heading in a given chapter – that is for you to discover.
3. When you have finished the study (reading the complete Book of John) consolidate your observations as they pertain to each heading into a concise Thesis Statement.
4. Then write a short paragraph summarizing your observations as they pertain to each heading.
5. Next write what you feel to be the definitive application for each heading.
6. Lastly write what you feel to be the personal application in terms of what the Lord was and is teaching you from the study – one for each heading.
